Table 6 shows the programme output of the Constituency Development Fund (CDF). Under the Community projects component, the LA has budgeted to procure two ambulances for the two constituencies of Chama district for the District Health Office (DHO). The LA has also planned to procure seven (7) motorbikes for the Chief returners for all the seven Chiefdoms in Chama district. Further, the LA has budgeted to procure approximately 5000 more desks for Chama North which still has a desk deficit which was not planned for in the previous year (2023). It should also be noted that the LA, has included desks for all the new Class Room Blocks (CRBs) constructions to be undertaken in 2024. Two maternity wings will be constructed in Pondo, Chipala ward and at Chibale Rural Health Centre (RHC) in Nkhankha ward. In addition, two reticulation systems will be installed within the district, one at the main police post, Kamphemba ward and another one at Kambili Health Post (HP) in Mphalausenga ward. It should be noted that the district especially for Chama South has received massive support from the World Vision projects who have been drilling boreholes, installing water reticulation systems and constructing ablution blocks at all public institution in six (6) wards of Chama South. Fifty (50) boreholes out of which twenty-eight (28) are water reticulation systems have been drilled. World Vision has finished feasibility studies in six (6) more ward of Chama North and Chama South and has indicated that they will provide water in the same ward. World Vision has further indicated that they will be in the district for fifteen (15) years.

Further, the LA has planned to disburse 100 percent of the CDF loan and grant funds to organised groups within the district. The turnout of applications for the empowerment component has been massive and the LA has had no challenges in disbursing the funds. However, in terms of implementation, some of the beneficiary of the grant component have not utilised the fund as intended. Currently the implementation rate is at 54% and the LA authority intends to increase that to atleast 70% with more field monitoring and evaluation for the year 2024.

Furthermore, the LA has planned to increase the number of pupils under the CDF bursaries component from the 418 to 568 pupils in 2024. For skills development, the LA plans to increase the number of sponsorships from 57 to 300 students in 2024. The current numbers of students are low due to the low interest levels by the youth within the district to apply for skills development programmes as initially perceived. However, after inviting Chipata trades institution within the district to conduct fasttracked processing of acceptance letters for students, a good number of students showed up and applied for the sponsorship to be considered in 2024. The LA will continue to sensitize and invite other reputable TEVETA accredited institutions within the district to offer fasttracked processing of acceptance letters as it appears youths cannot afford to get acceptance letters for skills courses outside the district.

Lastly, under the CDF administrative component, the LA plans to conduct ten (10) CDFC meetings to facilitate for CDF project approvals, Support the WDCs technically through backstopping their meetings and providing them with stationery for them to conduct their meetings. Equipment such as two (2) laptops, two (2) printers and an ICT server to support e-GP procurement among other automation services at the LA.
